“I create human-centered experiences through design.”

## 0.1 WORK EXPERIENCE

---

PRESENT **DESIGN INTERACTIVE, INC**

2017 UI/UX Designer  
in Orlando, FL

UI/UX design lead of an autonomous flying system created for Sikorsky and Lockheed Martin that works as a co-pilot to deliver data-driven suggestions to handle contingencies and routes for the U.S. military.

Worked closely with instructors to help rebrand, redesign and convert existing Webcourses at Johnson & Johnson Human Performance Institute for the use in an online adaptive learning system and facilitators guide book.

2017 **CRANE INSTITUTE OF AMERICA, LLC**

2016 Senior UI Designer  
in Sanford, FL

Heavily involved in every step of mobile application prototyping design including: widget design, layout design, interactive user prototypes utilizing Adobe XD.

Created and monitored eLearning modules using Articulate while working closely with subject matter expert.

2016 **SKYNINE AERIAL CINEMATOGRAPHY, LLC**

2014 Drone Pilot & Cinematographer  
in Orlando, FL

Developed aerial based productions using film-grade cameras and state of the art filming equipment with great attention to storyboard creation and visual detail.

2013 **OPERATION SHIFTING GEARS, LLC**

2012 Graphic Designer  
in Orlando, FL

Created an innovative brand and unique designs for Operation Shifting Gears; including style guides, multimedia, apparel design and print design. Prioritized graphic workload, design timelines, and effective coordination of multiple projects.

0.2 EDUCATION

---

2012 **MASTER OF SCIENCE**  
2011 Full Sail University  
Winter Park, FL

Hand selected to participate in ESPN Bristol Project. Which entitled myself to become a leader in a group to assign, build and execute job requirements. Such as developing UI's, interpreting research.

2011 **BACHELORS DEGREE**  
2009 Full Sail University  
Winter Park, FL

Received Course Directors Award in Graphic Web Design.  
Received Course Director Award in Motion Graphics Project.

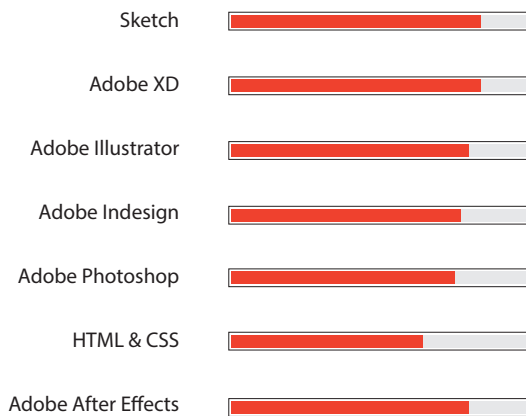

2017 **SPECIALIZED UX COURSEWORK**  
2017 The University of Michigan  
Online

Courseware focused on how to interact with users (or potential users) to understand what they need, what they currently do, what they love and hate, and examine human capabilities and behavior as they relate to UX design by conducting effective user interviews, developing personas and scenarios as design tools.
